National Quality Framework Quality Area 1:

educational program and practice

Educational program and practice

Children's health and safety

Australian Children's

Education & Care

Physical environment

Staffing arrangements

Relationships with children

Partnerships with families and communities

Leadership and service management

A program helps each child to learn and develop. Experiences stimulate and engage each child.

Examples of what to look for:

- Your child's interests and ideas are included in the program.
- Your child is supported by educators to participate in play and learning.

The **National Quality Framework** introduces a new quality standard to improve children's education and care services across Australia. Seven quality areas help ensure your child is given the best possible start in life. Over time, all Australian services will be rated against the National Quality Standard.

WHY IS IT
IMPORTANT?
High quality

High quality
education and care
gives children the
best start in life
